Most people know what the va. beach scene is like, but those who don't the scene is really ripp'n" with Henry's switchers, Alans high airs, Crescini's frontside bonelesses, Andy Howell's arched inverts, Fudala's backsides. We decided not to put to many pictures of these people in this issue because they already have extra coverage in all the other local V.B. rags We do have pictures in this issue of these hot skaters and also an interview with Alan Midgette.

I'm going to get right to the point about the Jam!
In the 1st heat Gator, Groholski (Hosi cause of injury he couldn't skate hard) (Steve Godoy this was his 1st though) Ken Park, John Lucero, Mike Smith, and others I think. Steve Steadham was doing a demo in Hawaii. Rob Roskopp was in a surf contest I heard. But he rarely enters contests. Well the men to make the 8 man cut where (check turnouts) All around a good contest, but very crowded. Sticker and board throw was a massere, but fun!
